

PETITION

STB Finance Docket No. 34836
#E1-7046
DAW

We, the undersigned citizens of Graham County, Arizona, do hereby state that we oppose Arizona Eastern Railroad's proposed rail line from the Safford Mine, running south along the San Simon River to the existing tracks near Old Solomonville Road for the following reasons:

1. Hazardous conditions created by an at grade crossing over US Highway 70. School busses and some trucks are required to stop at railroad crossings.
2. Hazardous conditions created by stopping traffic in both directions for the train to cross US Highway 70. Highway 70 is the main highway to the Safford area from Solomon and southeastern Arizona and southwestern New Mexico.
3. Noise created by the train.
4. Property devaluations because of the negative impact that a train will bring to our properties.
5. Flood Hazards to our property and surrounding area from construction of railroad Improvements.
